

PARTNER WITH LEGACY BUILDING SOLUTIONS

- ✓ Expand What You Can Build.
- ✓ Win More Work.
- ✓ Deliver Better Results.

LEGACY

Legacy Building Solutions delivers a hybrid building system that combines the best of pre-engineered metal structures with the advantages of a tensioned PVC-clad system.

The result is a clear-span, high-performance structure that provides unique benefits not available in traditional building methods.

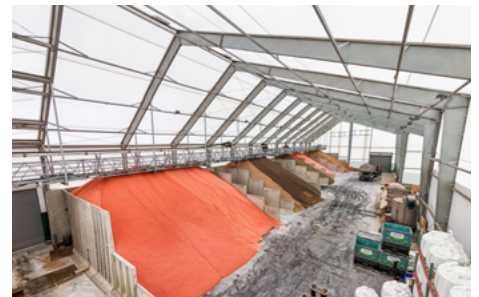

Common Applications Include:

Indoor Sports & Recreation Facilities

Aviation Hangars

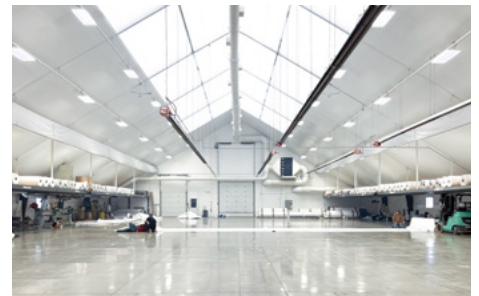

Bulk Commodity & Storage Facilities

Water & Wastewater Treatment Facilities

Equestrian Arenas

Manufacturing & Warehousing

Why General Contractors Choose Legacy

WE BELIEVE THE BEST PROJECTS ARE BUILT THROUGH PARTNERSHIP »

- ✓ **Differentiate** you from your competitors
- ✓ **Expand** your capabilities without adding complexity
- ✓ **Help** you win projects you may not otherwise pursue
- ✓ **Strengthen** your competitive position in key markets
- ✓ **Support** your team with engineering, design, and execution expertise

You **remain** the lead.

We help you deliver something better.

Unique Differentiation to Offer Your Clients

PVC-CLAD EXTERIOR **ADVANTAGES »**

**Corrosion-resistant in harsh environments
(salt, humidity, fertilizer, etc.)**

**Ideal for water treatment facilities,
coastal regions, and bulk storage**

**Proven durability with wind,
water, and impact resistance**

**No exposed fasteners for a clean exterior
appearance and maintenance-free finish**

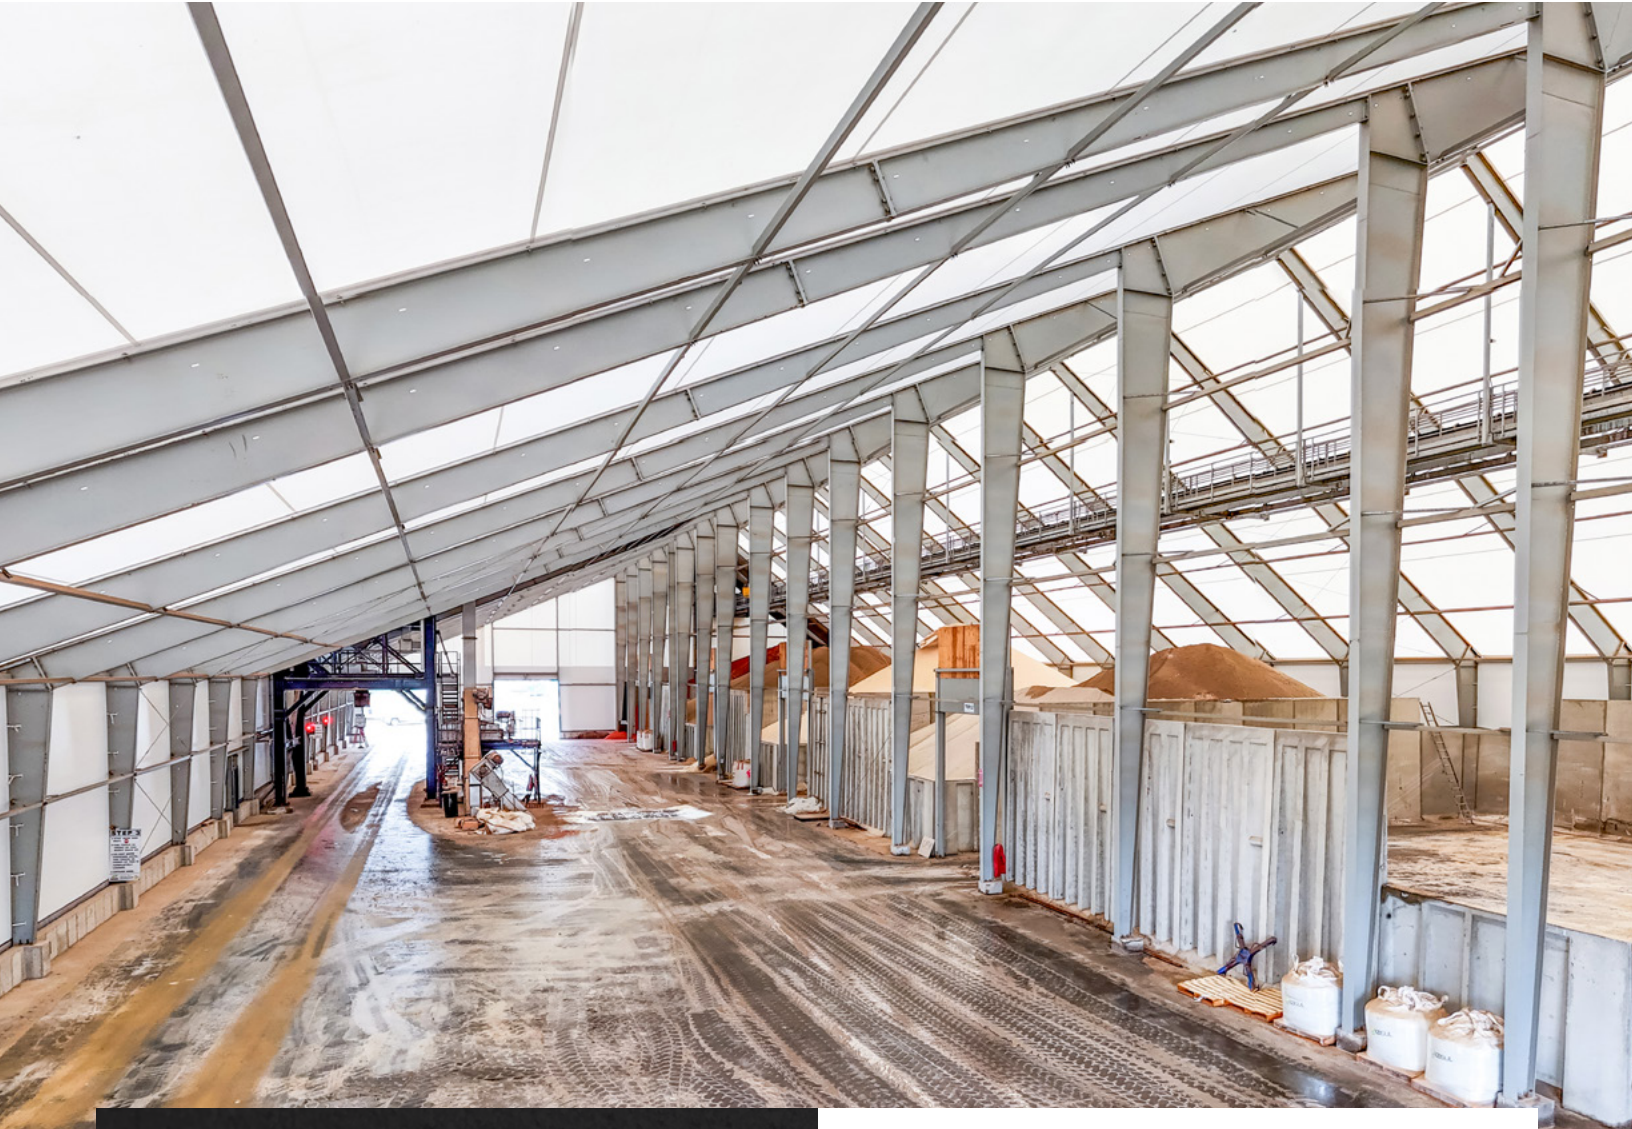

- 25-year warranty on our exclusive PVC cladding
- Custom color options & branding capability
- Translucent options provide natural daylighting
- Faster roof installation with reduced on-site labor

Unique Differentiation to Offer Your Clients

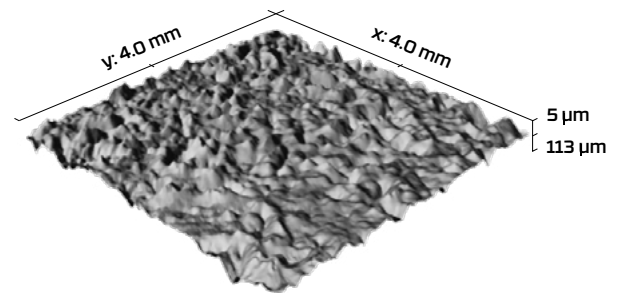

SUPERIOR STEEL **PROTECTION »**

Shot-Blasted
Steel Surface

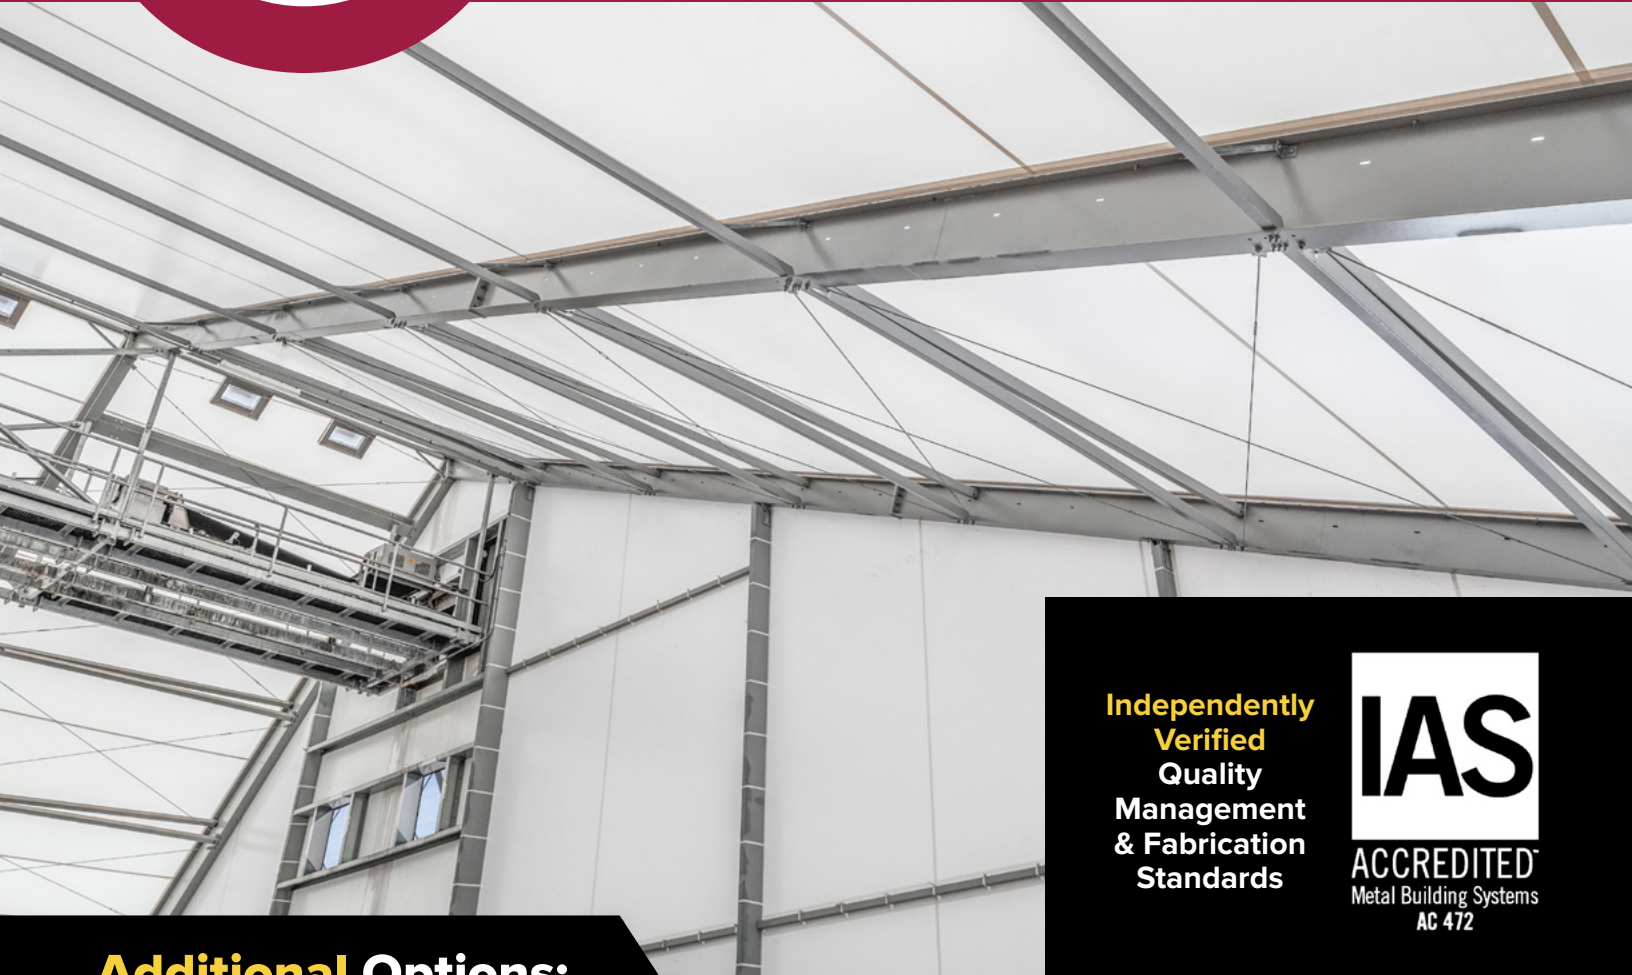

All structural steel is
shot-blasted prior to paint

Multiple Coating Systems Available:

Single-Coat Epoxy | Double-Coat Epoxy | Triple-Coat Epoxy

**Independently
Verified
Quality
Management
& Fabrication
Standards**

Additional Options:

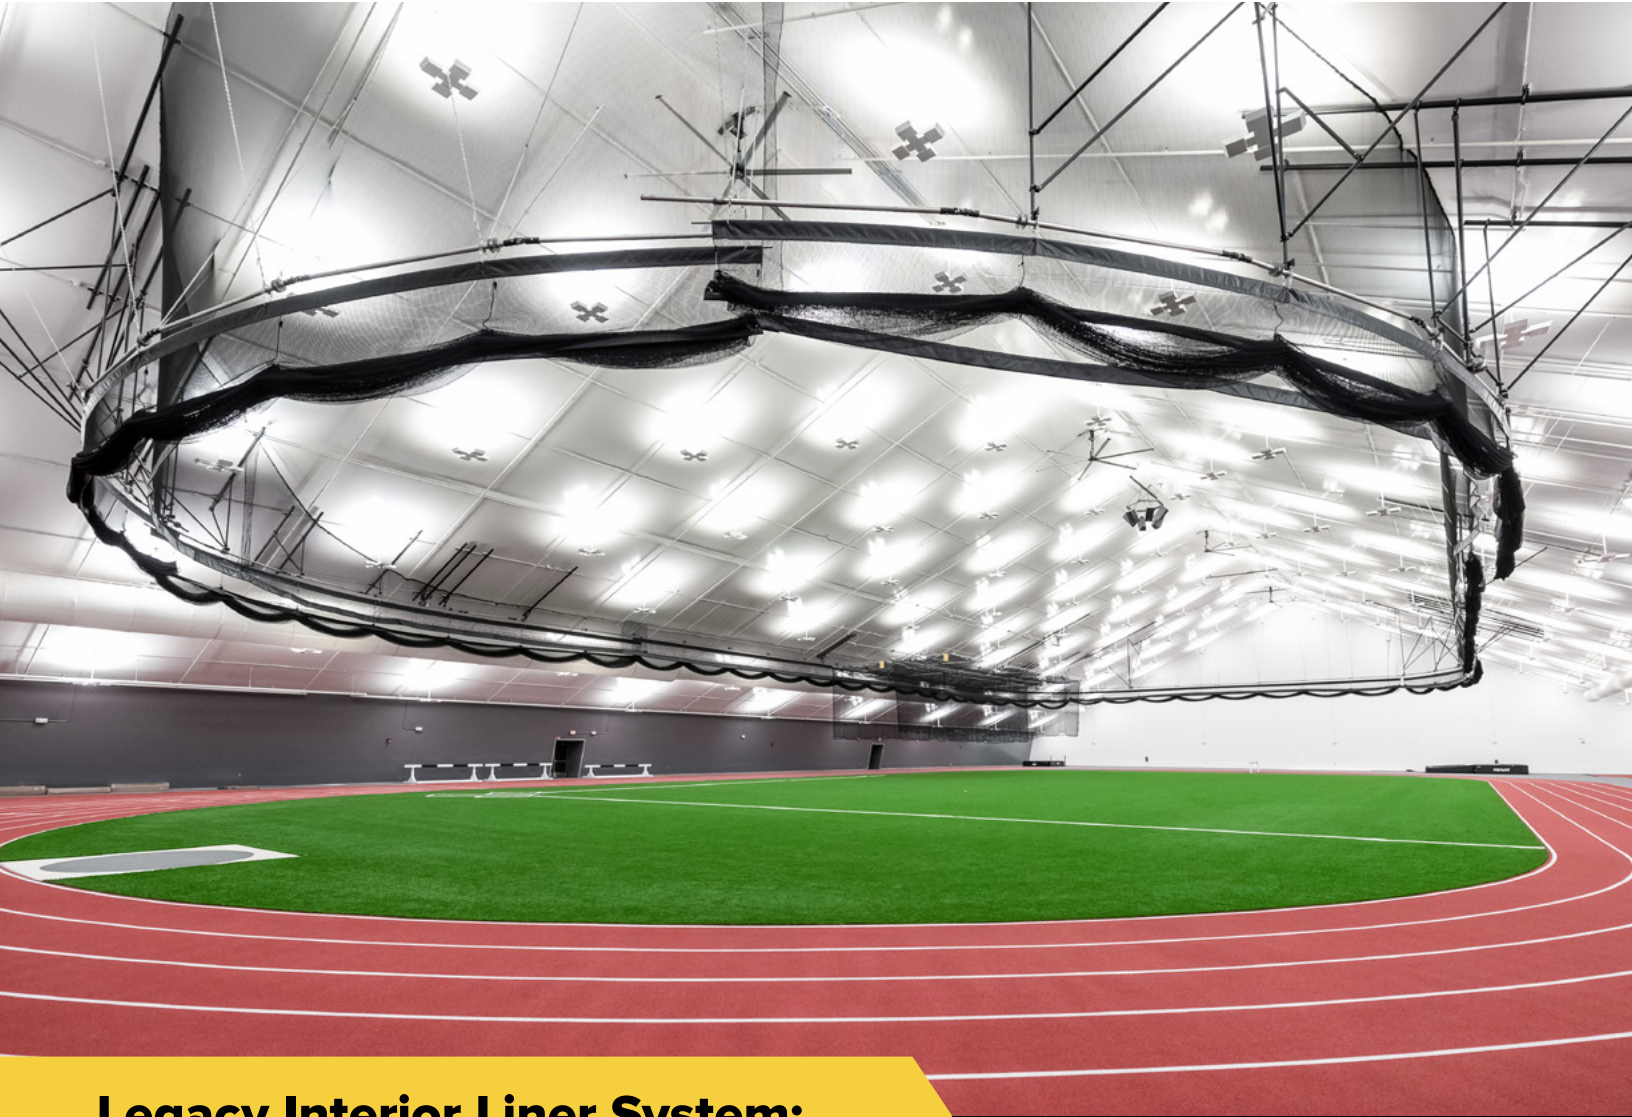

Hot-Dip Galvanized

Primer

Unique Differentiation to Offer Your Clients

EXCEPTIONAL INTERIOR ENVIRONMENT »

Legacy Interior Liner System:

- **Bright, clean, durable interior liner** with no exposed steel
- **No dust ledges**, shadows, or surfaces requiring ongoing painting
- **PVC liner will not tear**, rip, or sag over time
- **Reflective interior** reduces the need for artificial lighting
- **Multiple color options** and ability to incorporate logos or accent colors

High-Performance *Thermal Envelope*

0.032 to 0.025
Roof system U-values

0.043 to 0.024
Wall system U-values

Air infiltration up to
157% TIGHTER
than typical metal buildings

Improved energy
EFFICIENCY
for long-term operational savings

A Better Building Partner

HOW LEGACY FITS YOUR BUSINESS MODEL »

Unlock Niche Growth Opportunities

- **Clear span buildings** up to 300+ feet wide
- **No interior columns**—ideal for large, open spaces
- **Ideal for buildings** exposed to corrosive environments, projects where owners prioritize a high-end interior aesthetic, and applications requiring durable, low-maintenance building solutions

Flexible Installation Options

- **Installation services** available with in-house expert crews
- **Training programs** available to support self-performing erection
- **Streamlined installation process** requiring less labor and fewer specialized crews compared to traditional PEB systems
- **Opportunities to grow revenue** through installation services

Broad Geographic Coverage

- **Ability to partner** on projects nationwide
- **Successfully delivered projects** across the U.S. and Canada
- **Capable of supporting** opportunistic international projects

Fast, Reliable Preconstruction Support

- **Quick turnaround** on budgetary pricing
- **Dedicated sales support** to assist in capturing project opportunities

Coordination Made Easy

- **Standard details and components** for coordination with other trades
- **Integrated solutions** for electrical and mechanical systems

Simplified Design for Select Projects

- **Legacy offers foundation design services** for smaller, simplistic buildings
- **Legacy can provide** these drawings along with the building structural package

Experienced Project Management

- **Dedicated team** guiding you through each phase of the project
- **Early identification** of key project details to ensure efficient execution

Legacy Building Solutions is committed to supporting General Contractors with a building system that expands capabilities, improves project efficiency, and delivers long-term value to clients. By partnering with Legacy, you gain access to specialized expertise, proven systems, and a team dedicated to helping you succeed.
